Student residence permit – eligible for working student positions (up to 140 days/year)

PROFILE

M.Sc. Management & Information Technology student at WHZ Zwickau with a Bachelor's degree in Computer Science and Engineering (Bachelor's final grade: 2.1 on the German scale). Two internships in AI and data science, including acting as de-facto Scrum Master for an ML project team, and first author of an IEEE-published AI framework. Certified in Scrum (IBM) and project management (Google). Seeking a working student role in IT project management, agile delivery or digital transformation.

EDUCATION

10/2026 – expected 2028 | M.Sc. Management and Information Technology
Westsächsische Hochschule Zwickau (WHZ), Germany
Double-degree programme. Modules: Business Information Systems, Digital Business Models, Risk Management & Management Control, Applied Programming Project

12/2022 – 06/2026 | B.E. Computer Science and Engineering
The National Institute of Engineering (NIE), Mysuru, India
Final grade: 2.1 (German scale, uni-assist VPD)

WORK EXPERIENCE

02/2025 – 05/2025 | Neural Intelligence & Data Science Intern
Archelos Intelsense Technologies, Bengaluru, India
- Took on the de-facto Scrum Master role for the ML project team, coordinating sprints and keeping delivery on track
- Built and trained classification and prediction models in Python (scikit-learn, TensorFlow)
- Prepared raw datasets for modelling: cleaning, handling missing values, feature engineering
- Worked with developers to integrate models into an end-to-end ML pipeline

07/2023 – 09/2023 | Data Science Intern
Rinex Technologies, Mysuru, India
- Performed exploratory data analysis and statistical modelling on real-world datasets (Pandas, NumPy)
- Built and evaluated predictive models with scikit-learn
- Presented findings as visualisations and short reports for non-technical stakeholders

PUBLICATION

Sentinel: A Human-in-the-Loop AI Framework for Electoral De-Duplication — IEEE, ICKECS 2026 (first author)
ieexplore.ieee.org/document/11527542
AI framework that flags likely duplicate voter records and routes uncertain cases to human reviewers, combining automated matching with human verification. Presented at the conference in April 2026.

SKILLS

Project management: Scrum, Agile, Jira, SDLC, stakeholder communication
Data & AI: Python (Pandas, NumPy, scikit-learn, TensorFlow, Matplotlib), machine learning, data visualisation

CERTIFICATIONS

IBM IT Scrum Master Professional Certificate (02/2026)
Google – Foundations of Project Management (05/2025)
Atlassian – Agile with Atlassian Jira (01/2026)

LANGUAGES

Kannada – Native • English – C1 (IELTS 7.0) • Hindi – B1 • German – A1 (currently learning)

ADDITIONAL

National Cadet Corps - Navy 'A' Certificate – Cadet of the Year
